Our school is a day and boarding, so children and their parents can choice what's the better option for them. We have comfortable **bedrooms** divided into sections. Also, we have a great team of matrons who take care about the children and help them on their daily tasks.

Our **classrooms** are big enough for giving space to all our children. In order to study as much comfortable as possible.

Besides, we have a **Library** where the children can study and read the books available. Our library provides them specific and relevant materials for their daily studies.

**Playground and sports:** children need to practice sports and they love playing. Therefore, we have enough space for them: for Pre-primary School we have a playground where the children play and enjoy together. Also, we have a football field outside where our children play daily.
